Program Outline

The SPSP Academic Program is delivered and assessed over one year divided into three 14-week trimesters. The Academic program consists of the following areas of study:

- English Language 1190 hours.
- Pre-Algebra and Technical Mathematics 210 hours.
- Health & Safety Key Skills 70 hours.

Assessment is through Mid-Trimester & End of Trimester four skills (Speaking, Listening, Reading and Writing) task based assessment in combination with four continuous assessment tasks performed each trimester.

The teaching methodology used is strongly student centered through a competency-based approach to learning. At SPSP we tell our students, “It is not what you know, it’s what you can DO with what you know”.
